

## **IN REMEMBRANCE, SEPTEMBER 11, 2017**

These are the times that try men's souls. The immortal phrase written by Thomas Paine is still appropriate today.

America is being governed by charlatans, traitors, egomaniacs and prevaricators who through the use of their cabinet or legislative authority do their utmost to undermine the presidential agenda. It was this agenda for which the majority of the American people voted, notwithstanding the millions of illegal aliens who voted for the opposition or those who engaged in voter fraud on her behalf.

It is now 16 years after the tragic events of 9/11/01 when nearly 3000 Americans were murdered by Islamic terrorists, spawning the disruption of so many lives of the families of the victims. Rather than controlling or deporting the Muslim population in the US, the efforts of treacherous lobbyists (paid by Saudi and Qatar) and the Southern Poverty Law Center, and the Council on America Islamic Relations (CAIR), are enabling the Muslims to endeavor to control America. Several areas in Michigan and other states are virtually "no go" zones. Legislation to declare the Muslim Brotherhood a terrorist organization (S 2230 & HR 3892) has yet to be passed and the President in his address regarding our strategy in Afghanistan failed to address the enemy as Islamic terrorists. Why are American's still serving in Afghanistan whose only valuable export is the poppy used in making opiates? Who is profiting from America's presence there? Create peace in Afghanistan by incinerating the poppy fields now and annually.

Our borders have yet to be sealed as promised. Congressional equivocating and pandering to the illegal's as if they are really sympathetic to them is destroying our economy and citizen morale. The Democrats want votes and Republicans want cheap labor and we want the illegal's OUT. DACA (Deferred Action for Childhood Arrivals) must be expunged and a new, more efficient plan put in it's place. DACA was the result of an unconstitutional action by an imposter president.

Why haven't the so called Syrian refugees been returned to Muslim countries? Our immigration authorities under Osama rejected Christian refugees but welcomed Muslim refugees whose co-religionists were persecuting Christians. The longer we keep these people the harder it will be to get rid of them. Look how the Muslim refugees are behaving in Europe. Their criminal behavior here is unpublicized in order to protect those who condoned their presence in the USA. Americans are being placed at risk as sooner or later the plans of the terrorists among the refugee population will succeed. You may be sure that no refugee will provide us with intelligence. After all, the Muslims in Brooklyn cheered when the World Trade Center collapsed. Are we, who through our taxes pay for their welfare, to believe they did not have an indication about the projected attacks?

Antifa and other radical groups funded by George Soros (who feels that it is not easy

being “god”) are doing their utmost to disrupt and destroy America’s History and Heritage.

It is also 5 years since 4 Americans were allowed to die in Benghazi thanks to the indifference, incompetence and treachery of Barack Obama, Hillary Clinton and others. Why hasn’t the so called hero John McCain spoken out for justice? Is he afraid that the Clinton’s who collected information on many while Bill was president would expose McCain’s behavior as a POW in Vietnam?

It is certainly time for a reckoning. At least since the Vietnam War, it appears that the cowardice, corruption, naiveté and incompetence of many of our politicians is chronic. Many try to convince conservative patriots that we have to win at the ballot box and exclaim: “Ballots not Bullets.” Well it may need to be the other way around. The time for civil discourse may be over as reflected in the actions of our domestic enemies. And when the trouble starts you may be certain that politicians like Pelosi, Durbin, Schemer, McCauliffe, et al, will not condemn those who want to destroy America but they will condemn and insult those who wish to preserve and defend America. In the meantime, who knows what is in store for America with such lawless officials governing our homeland.

We cannot allow ourselves to forget those who perished on 9/11/01 and we should not feel that we shall enter ‘The Mansions of the Lord’ without trying to preserve for our children, and for their children, the freedom for which we fought to maintain and for which our forefathers fought and sacrificed in order to provide for generations to come.

These are indeed **the times that try men’s souls** or at least the souls of those who care.
