

## NEW YEAR'S MESSAGE 2022

Brothers and Sisters,

I would like to take this opportunity to wish you all a Joyous and Blessed New Year 2022. Unfortunately, based on the actions of incompetents, traitors and malcontents among our national leaders and representatives who are controlled by puppet masters and lobbyists, I lack confidence that 2022 will be joyous or happy; in fact, in my humble opinion, I suspect that America may be very nearly

**FUBAR!**

In November of 2003 when I was first elected Chairman of the National Vietnam & Gulf War Veterans Coalition, I began to relate my concerns and issued warnings about the threat to America imposed by adherents of Islam, deceptively referred to as 'a religion of peace' by those in our government who received significant contributions from Islamic organizations (nations?). I had warned over the years that the enemy was at the gates and subsequently that they were inside the perimeter. The overall situation in America, the threat imposed by Islam notwithstanding, has become exponentially much more serious.

Since the corrupted and stolen presidential election of 2020, our nation has devolved further into the abyss. Admittedly, during the previous four years President Trump did all that he possibly could to reverse America's decline but Democrat opposition, disloyal Rino Republicans and poor choices as to cabinet and judicial appointments did much to undermine his efforts.

As 2020 began to unfold, America was beset by a 'pandemic,' Covid 19, the Wuhan or Chinese virus, whose development was facilitated through the efforts of Dr. Anthony Fauci, Director of the National Institute of Infectious Diseases and Microsoft owner and billionaire, Bill Gates, through the inappropriate use of 'gain of function' which enabled the virus to be developed in Communist China. We are most grateful to Robert F. Kennedy for his revelations about Dr. Fauci in his book: "The Real Anthony Fauci."

As a result of the fears brought on by the pandemic, America was on virtual lock down and American society was destabilized. Family gatherings and personal communication and contact were disrupted and corrupt, heartless, arrogant governors ordered Covid patients to be housed in nursing homes with the elderly causing thousands of deaths (was euthanasia the objective) and much grief among family members who were unable to visit and comfort loved ones whose existence was terminated.

In the midst of the pandemic, the situation began to deteriorate precipitously on May 25, 2020 with the death of career criminal, George Floyd, in Minneapolis, Minnesota. Regardless of my personal opinion about George Floyd, the fact remains that his death was used as a catalyst for lawless elements to benefit (loot) and cause disruption in cities throughout the nation. BLM(black lives matter), Antifa and their financiers, instigated and capitalized on this disruption to promote their racist, socialist and anti-American agenda.

Consequently, these events enabled the 'Deep State' bad actors, Democrats and Rino Republicans to manipulate the 2020 presidential election by the use of mail-in ballots, ballot stuffing and Dominion

voting machines (by which foreign entities counted our ballots). As a result, the Democrats were able

2

to hijack the Presidential election and thanks to the treachery of then Vice President Mike Pence, who certified the election results rather than demand an investigation and audit of all ballots, America has been subjected to having an extremely corrupt, deceitful, nasty, ignorant and senile sock puppet as POTUS.

Subsequent to the January 6, 2021 Rally in Washington DC, where provocateurs and complicit capitol police enabled, induced or enticed peaceful protesters into the Capitol and Ashley Babbitt was murdered and another woman nearly beaten to death by the 'paladins' of law enforcement, numerous protesters were arrested. The arrests, in and of themselves, were unjust, some protesters were arrested for merely having been present. All those arrested, including several veterans, have been incarcerated, abused and even subjugated to torture by their guards in the DC jail. Nearly a year has passed and most of those incarcerated have not been tried in court or even been allowed to post bail. Such treatment suggests that if representatives of law enforcement controlled by corrupt government officials come to arrest innocent patriots, then perhaps resistance is mandatory. Recently, 13 courageous Republican representatives complained to the Mayor of Washington DC regarding this harsh treatment and as a result the deputy warden of the detention facility, Kathleen Landerkin, was dismissed from her position. However, that only 13 Republicans signed the letter, begs the question, where was the minority leader's signature and those of the nearly 200 others. I think later this year when we begin to evaluate congressional candidates for endorsement in the 2022 mid-term election, this will be one of the criteria determining our action. Several weeks ago Lt. Gen. Michael Flynn, USA, ret. wondered whether there might even be a 2022 election. Many share his concern and, if Dominion voting machines are used, then we might count communist dictator Josef Stalin's corollary as being applicable: 'It is not the amount of votes but who counts them.'

We are now beset by another variant of Covid, the Omicron variant which has afflicted numerous individuals including many who have been vaccinated (mandated or otherwise) and received the booster. We are most grateful to Dr. Peter McCullough and America's Front Line Doctors ([americasfrontlinedoctors.org](http://americasfrontlinedoctors.org)) for their untiring and courageous efforts to educate the American people and for providing protocols for the prevention and/or the cure of Covid 19, by recommending the use of hydrochloroquine and/or ivermectin. Of course, big pharma and the FDA are denouncing these doctors, scientists and their recommendations and also the reports of numerous deaths and injuries caused by the jab and the boosters. In addition, Americans have been beset by the imposition of vaccine mandates and other restrictions in many states, communities, organizations, etc and now the government endeavors to impose vaccine mandates on children. Upon closer examination, the whole process of creating the virus, development of the vaccine, and mandating its use seems to be an effort to cause depopulation over a period of time. It has been reported that the vaccines contain nano particles, graphine and perhaps living organisms, and may even contain ingredients that cause mental instability. Accordingly, I am more than inclined to recommend, along with those who are medical professionals, that one not only avoid the jab but also the swab (the test) which may be considered inaccurate at best. Also, instances of overt hostility between the masked and unmasked, the jabbed and the unjabbed, have been reported, which in addition to very tenuous race relations, has brought about further social and economic distress. It is important to note that the illegal aliens who have migrated into the USA, thanks to Biden's non-existent border controls, are not mandated to take the vaccine. Tuberculosis has also been reported to be occurring more frequently in urban areas. In addition, along with the illegals, some of whom are drug mules there has been a significant increase in the importation of illicit drugs, especially fentanyl, the #1 killer drug in the USA.

In the midst of all this domestic turmoil, last August it was decided that we should end our commitment to Afghanistan. Unfortunately, the orderly departure plan developed by President Trump in 2020 was cavalierly abandoned. Our incompetent State and Defense Departments not only deliberately surrendered more than \$85 billion in cash, military equipment and sophisticated weaponry, including Apache helicopters, to the Taliban, they abandoned hundreds, if not thousands, of Americans and Afghan allies to the mercy of the Taliban. At some point it may again be necessary to fight against these terrorists who will undoubtedly use their newly acquired equipment to cause our armed forces to suffer unnecessary casualties. Right now it appears that but for the efforts of small groups of dedicated and courageous Americans, the remaining Americans and Afghan allies have been forgotten. It is also noted that Taliban terrorists have migrated to the USA along with refugees who were fearful of the consequences of exposing them. Some of the 'refugees' have been moved to military bases and other locations in the USA. These refugees, whose hygienic practices, or lack thereof, have caused concerns on the bases and in the surrounding communities. In one particular location, Fort McCoy, Wisconsin, sanitation and criminal issues are on the rise due to the large refugee population which exceeds that of the local community.

The concept of Critical Race Theory (CRT) has been introduced and mandated for members of our armed forces and for our educational system. History is being inaccurately and dishonestly rewritten to placate the demands BLM (black lives matter) and other proponents of racial division. The theory claims whites have oppressed and exploited members of other races, and Chairman of the Joint Chiefs, Gen. Mark Milley disingenuously suggested that he wanted to understand the reason for white rage. Either he and idiot or he lives in a bubble. It is very uplifting to see that there are a number of our black fellow American patriots who understand the solicitousness of our current leaders and have spoken against CRT.

Finally, we come to our foremost foreign adversary, the Peoples Republic (not really the people's) of China (PRC) which owns 'President' Biden and his son Hunter, who over the years accepted significant largess from the PRC. Over the past four decades the Chinese communists have successfully infiltrated our institutions of higher learning and our science labs, have stolen our technology and nearly destroyed our balance of trade. China has been engaged in 'Unrestricted Warfare' against the USA and that does not exclude biological warfare as confirmed by China's deliberate development and spread of Covid 19. Over 2 million students and scientists from the PRC are now in the USA (infiltration). When ordered by their PRC masters to do so, they will most assuredly represent a 'fifth column' within our nation to further undermine what is left of our defenses if not our defensive posture. China, which has overtly threatened Taiwan and even Australia, is overpopulated, polluted, unsanitary, and in economic straits, desires our natural resources, our farmland and our water, without the presence of American people. A military response to an overt threat by communist China, especially a preemptive one might not be successful since Mark Milley in October 2020 contacted his Chinese counterpart to assure him that he would call to warn him first. Further, how might our WOKE, vaccinated, transgenderized, and demoralized military even be considered a threat to China. Although I am confident that America's veterans would stand and defend our nation, it is notable that in the 2009 Intelligence Assessment by the Department of Homeland Security (then in the hands of Janet Napolitano and now under Alejandro Mayorkas) declared that "veterans could represent a terrorist threat to the USA because they could be recruited by right wing extremists." In the Assessment, there was no mention of Muslim terrorists or of MS-13.

So, now in the final analysis, what solutions are available to patriotic Americans who by this inept and corrupt regime, have been put behind the proverbial eight ball? We cannot count on an honest election for 2022 but we must do our utmost to ensure it and continue to demand the audit of the 2020 election results. We must educate our children so that they are aware of the truth and are not indoctrinated, we must prepare ourselves for various contingencies, we must be vigilant, we must avoid being vaccinated and take the necessary protocols to thwart and/or cure covid. If all else fails then what choice might we have other than to **“CRY HAVOC AND LET SLIP THE DOGS OF WAR!”**

Best wishes for a Happy & Healthy New Year.  
John Molloy, OSJ  
Chairman  
National Vietnam & Gulf War Veterans Coalition
